

# dosiBOARD Factsheet

The dosiBOARD provides a clear and convenient storage solution for unused dosimeters and comes in multiple versions to cater to the specific requirements of our customers.

The modular dosiBOARD-II can hold up to 15 dosimeters (overall size: 42×39 cm). Dosimeters that need to be replaced can be stored separately. In addition, a hanger is available for dosimeters with lanyards.

The dosiBOARD-III, also designed modularly, can hold up to 10 dosimeters (overall size: 40 cm×11 cm×3.5 cm). Separate holders are available for dosimeters that need to be replaced as well as for eye and ring dosimeters. All holders can be easily removed and cleaned.

The dosiBOARD ring provides a storage solution for up to 10 ring and eye lens dosimeters. The overall size measures 42×5 cm. The storage containers can be personalized.

## 15 dosimeter

Width: **42 cm**

Height: **39 cm**

Depth: **3 cm**

## 10 dosimeter

Width: **40 cm**

Height: **11 cm**

Depth: **3.5 cm**

## 10 ring and eye lens dosimeter

Diameter: **42 cm**

Depth: **5 cm**
